

2005-06 Youth Apprenticeship Request for Proposals Frequently Asked Questions

1. Do we need to collect school administrators' signatures this year?

Yes, a representative of each agency participating in the consortium application needs to sign the partnership agreement, including the administrator (or designee) of each school district. (A school district may not participate in more than one partnership application.) These signatures may be submitted to DWD after the application has been submitted. They must be submitted no later than June 15, 2006. If they are submitted later, they should all be submitted at the same time, and include a cover list of all agencies represented by the enclosed signature pages.

2. How do we know what Workforce Development Area(s) we belong to?

Here is the website and the pdf map that will show the Workforce Development Areas for the state. <http://dwd.wisconsin.gov/dwdwia/>

wda_map.pdf

3. Is it all right for a current grantee to change fiscal agents for the new grant?

Yes.

4. Why was the fiscal contact name deleted from the application cover page?

The information requested on last year's application was used as a contact name to direct payment checks to. Since DWD now deposits checks directly into the grantee's bank, that person's name is no longer needed for that purpose. If there are questions on the fiscal reports, DWD will contact the fiscal agency listed.

5. Is there a partnership in the Marinette area?

Yes, the Marinette, Oconto, Langlade School to Work Consortium. Their name was inadvertently left off the partnership list. It has now been added to the RFP Guidelines posted on the DWD website.
